Dear Colleagues,

The Department of Gynaecology and Obstetrics of the University Hospital Centre Sestre milosrdnice (Sisters of Mercy), and the Croatian Society for Colposcopy and Cervical Diseases of the Croatian Medical Association are preparing their traditional gathering - the **8th Croatian Congress on the Prevention and Treatment of Early-Stage Cervical Cance**r, with International Participation.

From 28th to 30th January 2027, at the Sheraton Hotel in Zagreb, we wish to bring together numerous Croatian and international experts from various fields who will share their knowledge and experience with the aim of improving women's health, which is a cornerstone of the family and, consequently, of society as a whole.

Numerous specialist societies of the Croatian Medical Association whose activities include the promotion of women's health will participate in organising the congress. The diverse range of topics will enable us to develop a comprehensive, multidisciplinary scientific programme addressing the prevention and treatment of early-stage cervical cancer, thereby helping to reduce the incidence and mortality from this type of cancer.

We believe that our previous congresses have provided us with valuable experience and knowledge, and we look forward to meeting again in a friendly atmosphere and to exchanging new professional insights.

We look forward to welcoming you all to Zagreb.
