XVI Annual Meeting of the MSRM Mediterranean Society for Reproductive Medicine

**XII Croatian Congress on Gynaecologic Endocrinology,
Human Reproduction and Menopause** with international participation

V Congress of Clinical Embryologists with international participation

Dear friends,

With great honor and pleasure we invite you to the XVI Annual Meeting of the Mediterranean Society for Reproductive Medicine (MSRM), which will be held from the 5th to the 8th September 2019 in Opatija, Croatia.

We are confident that this meeting will offer broad, but at the same time profound presentations of different topics in reproductive medicine by renowned and highly experienced speakers.

Exceptional guest speakers, as well as workshop moderators will lead us through the latest controversies in the following

MAIN TOPICS: ANDROLOGY; ENDOMETRIOSIS; ENDOMETRIUM; FERTILITY PRESERVATION; HPV AND INFERTILITY; HYSTEROSCOPY; IMPLANTATION; MENOPAUSE; ORAL CONTRACEPTIVES; OVARIAN STIMULATION; OVARIAN FAILURE; REPEATED IMPLANTATION FAILURE; REPRODUCTIVE ENDOCRINOLOGY; REPRODUCTIVE SURGERY; ULTRASOUND IN REPRODUCTIVE MEDICINE

WORKSHOPS

Workshop 1.

Quality control (QC) in an andrology laboratory - Sperm selection for ICSI: a practical approach

Workshop 2.

Testis morphology and testicular sperm extraction (TESE): a practical approach

Workshop 3.

A practical approach to abnormal uterine bleeding

We invite authors to submit abstracts related to proposed topics. The best oral presentation will be awarded with a free registration and accommodation for the next MSRM meeting.

We look forward to sharing another memorable scientific and cultural experience with you.

Professor **Dinka Pavičić Baldani**, MD, PhD
Meeting Chairman

Professor **Timur Gürkan**, MD
President, MSRM 2017-2019

Poštovane kolegice i kolege, dragi prijatelji!

Vrijeme leti i već smo na domaku novog velikog Kongresa o ginekološkoj endokrinologiji, humanoj reprodukciji i menopauzi. Postajemo zreliji i napredujemo, što su prepoznali europski stručni autoriteti i omogućili nam organizaciju zajedničkog, međunarodnog Kongresa - *XVI Annual Meeting of the Mediterranean Society for Reproductive Medicine* i 12. hrvatskog kongresa o ginekološkoj endokrinologiji, humanoj reprodukciji i menopauzi. Ponosni na ovo priznanje, prihvatili smo i obavezu da budemo još bolji u odnosu na dosadašnju tradiciju uspješnog i značajnog regionalnog sastanka. I ove godine pridružiti će nam se kolege i prijatelji klinički embriolozi sa svojim 5. kongresom Hrvatskog društva kliničkih embriologa. Svjesni smo da potpuni uspjeh možemo postići samo vašim cjelokupnim zadovoljstvom.

Dodatna je novost da smo zbog proširenih zahtjeva kongresa i objektivnih okolnosti, sastanak organizirali u istom terminu, ali u Opatiji. To nam daje nove prilike, široke mogućnosti smještaja i možda potrebno osvježanje i privlačnost.

Čvrsto smo uvjereni da će *XVI Annual meeting of MSRM* i 12. hrvatski kongres o ginekološkoj endokrinologiji, humanoj reprodukciji i menopauzi ponuditi nove spoznaje o većini aktualnih tema. Zbog toga smo pozvali izuzetne predavače, svjetske stručnjake kao i vrhunske regionalne eksperte. Očekujemo interesantne rasprave, suprotstavljanje mišljenja i kvalitetne radionice. Predložiti ćemo i više kliničkih smjernica. Vas, drage kolegice i kolege, molimo da se aktivno uključite u rad kongresa, te obogatite naš program interesantnim prezentacijama i posterima.

Pozivamo Vas da se pravodobno prijavite za ovaj izuzetan dvojni kongres. Sigurni smo da ćemo opravdati visoka očekivanja kako stručnim tako i društvenim događanjima. Predavanja će biti prevedena, a stručne aktivnosti raznovrsne.

Work Station	Title of Course	Objectives
1. Moderators: Čavlović K, Gelo N, Rakoš Justament R	Semen analysis	Participants will learn how to assess the following: - volume, - coagulation, - liquefaction, - viscosity, - sperm count, - sperm concentration (chambers: Makler, Neubauer hemacytometer, Cell Vision, Cell-VU, Microcell), - sperm motility, - differences between manual and CASA semen analysis, - preparation of a seminal smear for morphology
2. Moderators: Tramišak Milaković T, Dundović M	Sperm Morphology	Participants will learn how to evaluate sperm morphology using Strict criteria: - prestained slides - Giemsa dye
3. Moderators: Ljiljak D, Matković K	HBA test	Preselection test for PICSI: - Hyaluronan binding assay
4. Moderators: Čukušić Kalajžić A, Panić Horvat L, Zovkić S	Vitality test and Hypoosmotic swelling test	Participants will learn how to make: - Vitality test (Eosin-Nigrosin stain): how to distinguish dead and live sperm in a poor motility semen sample. - HOS test evaluates sperm membrane integrity and is used to select live sperm for ICSI in a population of non-motile sperm
5. Moderators: Vujisić S, Šogorić Ševo S	Sperm DNA fragmentation	Participants will learn how to measure sperm DNA damage using HALO test. They will learn about other techniques for the same purpose.

6. Moderators: Hafner D, Špoljarić N, Matic I	Sperm Preparation Methods	Participants will be acquainted on schematic slides about methods of sperm preparation. - ejaculated sperm preparation for AIH, - ejaculated sperm preparation for IVF, - ejaculated sperm preparation for ICSI, - sperm preparation after retrograde ejaculation, - sperm preparation for ICSI after TESE/PESA/MESA Basic sperm preparation techniques: swim-up technique, density gradient technique, MACS Sperm selection techniques: PVP, PICSI, IMSI
7. Moderators: Stanić P, Dobec D, Štimac D	Semen Cryopreservation for Ejaculated and Testicular sperm	Participants will learn tips and tricks in cryopreservation of fresh ejaculated semen and testicular sperm.
8. Moderators: Kirinec G, Baričević M	Controlling for quality in the andrology laboratory	Participants will learn about QC and essential elements for good laboratory practice.
Croatian Society of Clinical Embryologists	Sperm analysis report	Participants will learn what are minimal proposals for a good quality sperm analysis report. - Revision of last consensus documents
